Tomizone announces Audi Centre Sydney partnership

Tomizone Limited (ASX: TOM) has secured the rights to deliver Wi-Fi services for Audi Centre Sydney, Australia's flagship Audi dealership.

The dealership will roll-out Tomizone's Lightswitch® Portal and Dashboard to provide engaging in-venue experiences for Audi customers visiting the showroom or service facility, while also deploying Tomizone's mobile Chauffeur Wi-Fi solution on all courtesy shuttle buses for Audi Centre Sydney customers.

Tomizone's CEO, Geoff Wanless, noted the importance of delivering an end-to-end solution for customers: "This partnership demonstrates how we are able to deliver solutions that complement the objectives of an innovative luxury brand by providing a customised approach. We look forward to working with Audi Centre Sydney and growing this significant relationship further."

For Audi, a brand synonymous with setting new standards in technology and premium customer experience, the partnership with Tomizone delivers another level of customer service by creating invaluable, secure digital connections with customers.

About Tomizone (ASX: TOM)

Tomizone is a Wi-Fi software company that powers in-venue digital experiences that drive consumer engagement and revenue. Its vision is to create the best Wi-Fi software products and sell them to the world. The company mission is to connect customers to consumers through Wi-Fi experiences.

Tomizone operates in over 80 countries, focusing on accommodation, transportation & hubs, retail, metro & campus, and hospitality — while expanding into new verticals where Wi-Fi engagement becomes increasingly critical for venues. The company currently has over 1,500 customers and is managing over 26 million WiFi sessions per year. For further information please visit www.tomizone.com
